The Company:

Behind every Yes Events success story is a dedicated team of professionals.

For more than 20 years, the Yes Events team has provided mobile discotheques, sound and lighting production, special effects, staging, pyrotechnics, firework displays, specialist entertainers, live bands, multimedia presentations, team building activities and much more. We have covered all types of events, from private parties concerts and weddings to product launches and award ceremonies. Our diverse range of clients includes the BBC, British Gas and the Surrey Police.

At Yes Events, we take great pride in our attention to detail, and find great satisfaction in constantly exceeding our clients' expectations. Whatever the occasion, we will work with you from the first planning stages until the very end of your event to ensure complete success. So *'invent your event'* with Yes Events.

Event production:

A lot of background work goes into a successful event, and we're here to do it for you.

Starting with our expert advice, we'll listen to your needs and work out all the necessary ingredients that will build the framework of your event, taking it from concept through to completion.

Over the years, our enthusiastic and professional approach has taken us to every possible type of event and venue. From BBC launch parties and charity balls at Blenheim Palace, to vintage motoring festivals and society weddings in country mansions.

Whether you are planning a dreamy wedding or a conference with memorable impact, we'll take you through all the technical requirements for staging, sound, AV, lighting production, imaginative themes and even show-stopping fireworks.

Lighting
