PROJECT MANAGER – LUMINISM LIGHT ART PIONEERS

Job Title: Project Manager – Luminism Light Art

Location: Wokingham, RG41 (plus some on site work across UK)

Contract: Full-time, Permanent (4 day week would be considered)

Salary: Competitive + benefits (based on experience)

We're looking for an exceptional Project Manager to take the lead on our stunning Luminism Light Art projects – from enchanting Christmas Light Walks to immersive art installations at music festivals, corporate events, and private venues across the UK.

This is a dynamic and creative role, perfect for someone who thrives on bringing large-scale artistic concepts to life through careful planning, collaboration, and a meticulous eye for detail. You'll be responsible for managing multiple large-scale projects simultaneously; guiding projects from initial client brief and creative proposal through to delivery and debrief.

You'll act as the main point of contact for all Luminism clients, liaising with our Technical Project Managers, Production Director, Lighting Designers, and suppliers to ensure that every project is delivered to the highest possible standard. From scheduling and logistics to budget management and on-site coordination, you'll own the process end-to-end, ensuring every project runs smoothly, professionally, and creatively.

Key Responsibilities

- Lead all Luminism Light Art projects from concept to completion, ensuring high-quality delivery that meets creative, technical, and commercial objectives.
- Be the central client contact, building strong relationships, managing expectations, and providing clear communication throughout the project lifecycle.
- Take full ownership of all Christmas Light Walk projects (approx. 4 annually), including creative planning, supplier coordination, logistics management, and on-site delivery.
- Work closely with our Technical Project Managers, Production Director and internal teams to ensure accurate scoping, resourcing, and delivery of installations.
- Manage project budgets, quotations, and invoicing, ensuring profitability and financial accuracy across all projects.

- Oversee the creation of client proposals and design presentations, working collaboratively with our Production Director and Lighting Designer to bring ideas to life.
- Conduct site visits and client meetings UK-wide, ensuring site requirements and safety standards are fully met.
- Maintain robust project documentation including schedules, contracts, risk assessments, and post-project reports.
- Identify and develop new opportunities for Luminism installations outside of the festive season; including festivals, experiential marketing, and art-led events.
- Represent the brand at industry and networking events, helping expand awareness of our Luminism offering.

About You

You're a natural project leader who combines creativity with structure and thrives in a fast-paced, hands-on environment. You'll have strong experience in multi-layer event or production management, ideally with a background in light art, outdoor events, or immersive installations. You're confident communicating with clients and creative teams alike. Presenting ideas with flair, managing budgets with precision, and coordinating complex logistics without losing sight of the bigger creative vision.

Essential Experience & Skills

- Proven track record in project management within events, production, or installations
- Experience managing large scale creative projects, ideally including Light Walks or outdoor experiences
- Strong organisational, communication, and negotiation skills
- Experience managing budgets, quotations, contracts, and invoicing
- Confident presenting ideas and creative concepts to clients
- Ability to manage multiple projects and deadlines simultaneously
- Willingness to travel UK-wide and work flexibly around project schedules
- Availability throughout October–December, when annual leave restrictions apply due to seasonal project commitments

Why Join Us?

You'll be part of a passionate, creative, and collaborative team that specialises in delivering visually stunning and technically ambitious light art installations. Every

project is unique — combining art, technology, and storytelling to transform spaces and captivate audiences.

We'll give you the platform to lead exciting projects, grow your creative and operational skills, and help shape the future of Luminism Light Art.

If you're an experienced project manager with creative flair and a love of immersive experiences, we'd love to hear from you.
