SUMMARY

Due to our expansion and strong client base, there is now a fantastic opportunity to expand our team. We are looking for a Production Technician to work mainly out on site helping to deliver our clients projects as well as duties in the warehouse with the preparation and de-prep of equipment for jobs as required.

THE COMPANY

We are a live event, production and equipment rental company who supply a wide range of technical services to the live events sector across the UK and overseas. The company is made up of a dedicated and knowledgeable existing team with a proactive attitude to problem solving. We utilise cutting edge, stage, light, sound, video, power and rigging equipment to bring our clients visions to life and create memorable events.

THE ROLE

You will be working closely with Technical Project Managers, Production Managers, other technicians and the warehouse team in the delivery of clients projects.

You will be mainly working on-site in a client facing role and therefore expected to represent the Company in the best light at all times.

You will be expected to be flexible and adapt to the changing needs of the company as well as clients during their events.

As a Production Technician, you will maintain a high level of knowledge and understanding of our Company equipment, regular venues, clients and working practises.

- Hands on preparation of equipment - stage, light, sound, video, power and rigging
- Ensuring all equipment is kept clean and well presented.
- Ensuring workspaces are kept in a clean and orderly condition.
- General service, maintenance, and repair of equipment.
- Loading and unloading of vans and trucks.
- Site work both indoors and outdoors.
- Adhering to company Health and Safety policy.
- Maintain high customer service levels with the client on and off-site.
- Install and de-rig equipment as directed by the onsite Manager or as per the information provided by the Technical Project Managers, Sales Team & Production Managers.
- Programming and operating equipment in line with the clients briefs and goals.

- Help with technical solutions to issues raised by the Technical Project Managers or Sales Team.
- Keep up to date with new or emerging techniques or equipment usages, including undertaking training.

THE CANDIDATE

The successful candidate(s) must be able to work well in a team, have a good base knowledge of lighting, sound, and video equipment and ideally a specialism in one of those disciplines. The successful candidate should also be prepared for continued development of their skills and have a flexible work ethic including working evenings & weekends. Experience of working in events or on shows is essential.

Whilst not essential - due to our motor vehicle insurance, our ideal candidate(s) will be aged over 21 with a full UK driving licence.

If you are looking to progress your career within this well-established company that can offer a great working environment, fantastic training opportunities and career progression then apply now!

BENEFITS

- Enrolment into the Company Pension scheme, if applicable
- Free onsite parking
- 28 days holiday including allowance in lieu of bank holidays
- 1 hour of paid break(s) per day
- Meals and accommodation provided when working on site and away from the warehouse
- Option to work additional paid overtime and accrue additional holiday at the discretion of your line manager

The above is not an exhaustive list and you may be required to undertake other related duties required by the businesses.

Job descriptions and roles will be reviewed annually by the Company Leadership Team as part of our employee performance review process.
